Introduction

1. Introduction

1.1 FTSE Global China A Inclusion Index Series

1.1.1 The FTSE Global China A Inclusion Indices is a series of benchmarks providing market participants with a choice of how to include China A Shares in global benchmarks.

1.1.2 There are two versions of the FTSE Global China A Inclusion Indices. The headline version is based on the FTSE China A All Cap Index with an inclusion factor applied to the China A Share constituents within FTSE Global Equity Index Series. The “no quota” version does not apply the inclusion factor.

For further information about the FTSE China A Indices used in the FTSE Global China A Inclusion Index Series and the global and regional indices used in the FTSE Global Equity Index Series, please refer to the FTSE China A All Cap Index Series and FTSE Global Equity Index Series Ground Rules available on www.lseg.com/en/ftse-russell/.

1.2 Indices included in the FTSE Global China A Inclusion Index Series

The following indices are included in the FTSE Global China A Inclusion Index Series:

1.2.1 FTSE Global China A Inclusion Indices

The indices include China A Shares using constituents of the FTSE China A All Cap Index with an inclusion factor.

1.2.2 FTSE Global China A Inclusion (no quota) Indices

These indices will include China A Shares with constituents of the FTSE China A All Cap Index without an inclusion factor.

Please refer to section 4 for further details of what indices are available in the FTSE Global China A Inclusion Index Series.

1.3 The FTSE Global China A Inclusion Index Series does not take account of ESG factors in its index design.

1.4 The FTSE Global China A Inclusion Index Series is calculated at the end of each day in Renminbi (Chinese Yuan), US Dollars, Euros, UK Pounds Sterling and Japanese Yen.

1.5 Price, total return and net of tax indices are published at the end of each working day. Declared dividends are used to calculate the Standard Total Return Indices in the FTSE Global China A Inclusion Index Series. All dividends are applied as at the ex-div date.

1.6 A series of net-of-tax total return indices are also calculated based on the maximum withholding tax rates applicable to dividends received by institutional investors who are not resident in the same country as the remitting company and who do not benefit from double taxation treaties.

- 1.6.1 Withholding tax rates used in the net-of-tax indices can be accessed using the following link:

[Withholding Tax Service](#)

Please also refer to the FTSE Russell Withholding Tax Guide which can be accessed using the following link:

[FTSE Russell Withholding Tax Guide.pdf](#)

- 1.7 Selected indices of the FTSE Global China A Inclusion Index Series are calculated and disseminated on a real-time basis. (See Appendix B.)

1.8 FTSE Russell

1.9 Index objective and intended use

- 1.9.1 The indices and index statistics are intended to reflect the investment markets included in the index definitions and to facilitate the detailed analysis of such markets.
- 1.9.2 FTSE Russell hereby notifies users of the index series that it is possible that factors, including external factors beyond the control of FTSE Russell, may necessitate changes to, or the cessation, of the index series and therefore, any financial contracts or other financial instruments that reference the index series should be able to withstand, or otherwise address the possibility of changes to, or cessation of, the index series.
- 1.9.3 Index users who choose to follow this index or to buy products that claim to follow this index should assess the merits of the index's rules-based methodology and take independent investment advice before investing their own or client funds.  - any inaccuracies in the compilation or any constituent data in the index.

1.10 These Ground Rules

2. Management responsibilities

2.1.1 FTSE is the benchmark administrator of the index series¹.

2.1.2 FTSE is responsible for the daily calculation, production and operation of the index series and will:

- maintain records of the index weightings of all constituents;
- make changes to the constituents and their weightings in accordance with the Ground Rules;
- carry out the periodic index reviews of the index series and apply the changes from the reviews as required by the Ground Rules;
- publish changes to the constituent weightings resulting from their ongoing maintenance and the periodic reviews; and

2.2 Amendments to these Ground Rules

2.2.1 These Ground Rules shall be subject to regular review (at least once a year) by FTSE Russell to ensure that they continue to best reflect the aims of the index series. Any proposals for significant amendments to these Ground Rules will be subject to consultation with FTSE Russell advisory committees and other stakeholders if appropriate. The feedback from these consultations will be considered by the FTSE Russell Index Governance Board before approval is granted.

2.2.2 As provided for in the Statement of Principles for FTSE Russell Equity Indices, where FTSE Russell determines that the Ground Rules are silent or do not specifically and unambiguously apply to the subject matter of any decision, any decision shall be based as far as practical on the Statement of Principles. After making any such determination, FTSE Russell shall advise the market of its decision at the earliest opportunity. Any such treatment will not be considered as an exception or change to the Ground Rules, or to set a precedent for future action, but FTSE Russell will consider whether the Rules should subsequently be updated to provide greater clarity.

¹ The term administrator is used in this document in the same sense as it is defined in [Regulation \(EU\) 2016/1011 of the European Parliament and of the Council of 8 June 2016 on indices used as benchmarks in financial instruments and financial contracts or to measure the performance of investment funds](#) (the European Benchmark Regulation) and [The Benchmarks \(Amendment and Transitional Provision\) \(EU Exit\) Regulations 2019](#) (the UK Benchmark Regulation).

- 6.1 Information on additions of constituents outside of a review for the underlying FTSE global/regional indices and FTSE China A Indices can be accessed through with the FTSE Global Equity Index Series and FTSE China A All Cap Index Series Ground Rules.

Corporate actions and events

7. Corporate actions and events

- 7.1 Full details of changes to constituent companies due to corporate actions and events can be accessed in the Corporate Actions and Events Guide using the following link:

[Corporate Actions and Events Guide.pdf](#)

A corporate action is an action on shareholders with a prescribed ex-date. The share price will be subject to an adjustment on the ex-date. These include the following:

- capital repayments;
- rights issues/entitlement offers;
- stock conversion;
- splits (sub-division)/reverse splits (consolidation); and
- scrip issues (capitalisation or bonus issue).

A corporate event is a reaction to company news (event) that may impact the index depending on the index rules. For example, a company announces a strategic shareholder is offering to sell their shares (secondary share offer) – this could result in a free float weighting change in the index. Where an index adjustment is required, FTSE Russell will provide notice advising of the timing of the change.

7.2 Shares in issue

- 7.2.1 Changes to the number of shares in issue for constituent securities are covered in the Corporate Actions and Events Guide.

7.3 Investability weightings

- 7.3.1 Changes to free float for constituent securities are covered in the Corporate Actions and Events Guide.

7.4 Spin-offs

If a constituent company is split and forms two or more companies by issuing new equity to existing shareholders, then the resulting companies may be eligible to continue as constituents in the same indices within the FTSE Global China A Inclusion Index Series as their predecessor company. Where eligible to continue as a constituent, the spin-off entity (entities) will remain in the same indices as the parent company until the next quarterly review, where subject to there being a minimum three-month trading record, it will be tested for liquidity as a new issue and be re-ranked or deleted if below the exit threshold.

For further details, please refer to the Corporate Actions and Events Guide.

7.5 Suspension of dealing

Suspension of dealing rules can be found within the Corporate Actions and Events Guide.

7.6 Takeovers, mergers and demergers

- 7.6.1 The treatment of takeovers, mergers and demergers can be found in the Corporate Actions and Events Guide.
